DIRECTOR'S NOTES

I couldn't have picked a more perfect location for *Peter Pan* if I had tried. There's something particularly exciting about doing a show about imagination and joy in such a magical location, and I'm thrilled to be able to share some of that magic with all of you. Peter Pan is a story that speaks directly to the heart of these things – whether it be through unfolding a fantastical adventure for our younger audiences, or by creating a space for older audiences to commune with that perfectly bittersweet sense of nostalgia.

Having a multi-generational cast and crew full of families and friends new and old makes this experience particularly special for me, and I hope for you as well. If Peter Pan's secret to never growing up is fairy dust and lovely thoughts, then ours is letting the younger members of our group remind us that we are all children at heart. Theatre does seem to be uniquely positioned to offer us a chance to do that – it's called a "play" for a reason!

As you step into our world of swashbuckling pirates, fierce warrior women, fairies, and brave, scrappy boys, I hope you allow us to take you on the same journey we have been on for the last three months. We all have a bit of Neverland in us, and I can't wait to bring you back to a world where dreams are born!

P.S. As you may note, Tiger Lily's tribe is based on the Amazon warrior women of Greek mythology. For an extended journey into the world of our show, I highly encourage you to delve into the mythical history of these incredible women.

BIG TREE TRAIL

One of the delights of the Mountaineers' Kitsap Forest Theater is being surrounded by the Mountaineers Foundation Rhododendron Preserve – a 460 acre nature conservancy with over 70 acres of old-growth forest. Ancient western red cedars abound with many other trees, ferns and wildlife. One of the biggest trees on the Kitsap Peninsula is located on the preserve. The trail to 'Big Tree' is about 1/2 mile long and starts near the historic Kitsap Cabin, ending at one of the 10 largest Douglas Fir trees in the world (2nd largest in Kitsap County). The tree itself is over 30' in diameter. The hike takes you on a bridge over Wildcat Creek with views of Hidden Valley, blooming trillium, wild rhododendrons and many other native trees and plants. You truly feel as if you have entered another world.

If you hike the trail after the show, please be sure your car is not blocking anyone in. Please note that the first part of the trail is steep – wear walking shoes and enjoy your trek into another time and place!
